BIS@80 - Infinity of Quality

Concept Note

BIS@80 - Infinity of Quality

The BIS@80 commemorative logo celebrates eight decades of the Bureau of Indian Standards' contribution to quality, safety, reliability and consumer confidence in India. The number "80" forms the centerpiece of the design. The digit "8" is represented as an infinity loop, symbolizing the continuous journey of standardization, innovation and quality improvement. The digit "0" incorporates the BIS logo, signifying BIS as the foundation of India's quality infrastructure.

The tricolour-inspired sweep reflects national progress and BIS's contribution towards Viksit Bharat. The design also represents the four key pillars of BIS: standardization, testing, certification and consumer awareness. The clean and modern visual identity conveys trust, excellence and reliability while ensuring scalability across digital and print media, official documents, publicity materials and merchandise.

The logo captures BIS's rich legacy and its continued commitment to making quality a way of life for every citizen of India.

Eight Decades of Quality, Building Viksit Bharat

EIGHT DECADES OF TRUST. A FUTURE OF EXCELLENCE.

For 80 years, the Bureau of Indian Standards has been the cornerstone of India's quality infrastructure. Through standardization, testing, certification and consumer awareness, BIS has empowered citizens, strengthened industries and ensured safety, reliability and quality in every aspect of life.

Together, let us build a Viksit Bharat through Quality.

OUR COMMITMENT. OUR IMPACT.

STANDARDIZATION
Developing standards for a better tomorrow

TESTING
Ensuring quality and safety through testing

CERTIFICATION
Building trust through conformity assessment

CONSUMER AWARENESS
Empowering consumers. Enabling informed choices.
