BIS@

# The logo tells a single story, 80 years of trust, care, and standards that guide the nation, with a promise to continue serving India, always.

The joyful human figures above the "80" represent the people of India. They celebrate the trust BIS has placed in them and the trust they, in turn, place in BIS, a bond that will continue to grow.

The "8" is shaped as the symbol of infinity, expressing that BIS will keep serving the people of India endlessly, a promise that BIS will always be present, steadfast and enduring.

The red ribbon forming "80" represents celebration. A ribbon is a symbol of festivity, making it a fitting choice for this proud moment, as BIS marks eight decades of building trust with the nation and continues to do so. The flowing form of the ribbon conveys continuity, gracefully tracing the journey of 80 years.

The "0" gently cradles the BIS emblem beneath it, much like a mother holds her child within the shelter of her hands. This reflects how BIS has nurtured and safeguarded the interests of the people with care throughout its 80-year journey.
