Concept Note : BIS@80: Eight Decades of Building Trust Through Quality

The **BIS@80** commemorative logo celebrates eight remarkable decades of the Bureau of Indian Standards as the nation's trusted institution for **quality, safety, reliability and standardization.** The visual identity brings together the legacy of **1947–2027,** marking a journey that has helped shape India's quality culture and strengthen consumer confidence.

At the heart of the logo is the **stylized "8",** symbolizing **80 years** while also representing continuity, consistency and an enduring commitment to excellence. Its flowing form reflects the evolving journey of BIS from establishing standards to enabling testing, conformity assessment, certification and greater consumer awareness.

The **golden circular form** signifies the **Golden Era of BIS,** representing achievement, trust, credibility and the value created through eight decades of service to the nation. The iconic BIS mark reinforces its role as a benchmark of quality in everyday life.

The **1947–2027 timeline,** complemented by the **Indian tricolour-inspired** elements, connects BIS's institutional journey with India's national progress. Together, these elements express a larger vision: **quality as the foundation of a stronger, safer and more confident India.**

As India advances towards **Viksit Bharat,** BIS@80 represents not merely a milestone, but a continuing commitment to make **standards, quality and trust the bedrock of India's growth and development.**
